SEP 17 2014

Mr. John E. Kieling, Bureau Chief
Hazardous Waste Bureau
New Mexico Environment Department
2905 Rodeo Park Drive East, Building 1
Santa Fe, NM 87508-6303

Subject: Update to the Information provided to the New Mexico Environment Department Regarding the WIPP Nitrate Salt Bearing Waste Container Isolation Plan dated September 5, 2014

Reference: New Mexico Environment Department Correspondence from Ryan Flynn, Secretary, to Jose Franco, Carlsbad Field Office and Robert L. McQuinn, Nuclear Waste Partnership LLC, dated August 7, 2014, subject: WIPP Nitrate Salt Bearing Waste Container Isolation Plan, Waste Isolation Pilot Plant, and EPA I.D. Number NM4890139088

Dear Mr. Kieling:

The purpose of this letter is to provide an additional hazardous waste manifest in response to the above referenced letter. The revision to this manifest was completed subsequent to the submittal of the requested information to the New Mexico Environment Department on September 5, 2014. The Manifest Number 010784205 JJK for Shipment LA130151 is included as an enclosure to this letter.

We certify under penalty of law that this document and all attachments were prepared under our direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on our inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of our knowledge and belief, true, accurate, and complete. We are aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

If you have any questions, please contact Mr. George T. Basabilvazo at (575) 234-7488.

Sincerely,

Original Signatures on File

Jose R. Franco, Manager
Carlsbad Field Office

Robert L. McQuinn, Project Manager
Nuclear Waste Partnership LLC

Office of Program Management
Carlsbad Field Office
U. S. Department of Energy
P.O. Box 3090
Carlsbad, New Mexico 88221-3090

Dear Mr. Stroble,

Subject: Written Concurrence for Correction of Waste Manifests

The purpose of this letter is to follow up our recent conversation regarding a discrepancy on manifests for containers (see attachment) that were shipped from the Los Alamos National Laboratory (LANL) to the Waste Isolation Pilot Plant (WIPP). The containers were received at the WIPP facility between August 8, 2013, and January 29, 2014, in shipments associated with 49 separate manifests (see attachment). WIPP accepted the shipments for disposal, and the manifests were returned to LANL without any discrepancies identified. Due to recent events at WIPP, and re-evaluation of Acceptable Knowledge information, the Carlsbad Field Office (CBFO) notified LANL that there was a manifest discrepancy based on WIPP's determination that nitrate salt-bearing waste containers required application of the EPA Hazardous Waste Number D001 and DOT subsidiary Hazard Division 5.1. Further, CBFO requested concurrence from LANL that the manifests can be corrected pursuant to Section C-5b(1) of the WIPP Waste Analysis Plan (the WAP) which provides that errors on a manifest can be corrected by WIPP with a verbal (followed by a mandatory written) concurrence by the generator/storage site technical contact. This letter provides that written concurrence.

At the time LANL shipped the containers to WIPP, the manifests identified the hazardous waste numbers and hazard class determined to be appropriate at that time based on acceptable knowledge. Due to the recent events at WIPP, LANL has been re-evaluating the characterization of the waste stream. On July 30, 2014, the Department of Energy, National Nuclear Administration (DOE/NNSA) and Los Alamos National Security, LLC (LANS) notified the New Mexico Environment Department that LANL had decided to provisionally apply EPA Hazardous Waste

Number D001 for the characteristic of ignitability to certain nitrate salt-bearing waste containers stored at LANL.

We are continuing to re-evaluate the waste characterization information concerning these nitrate salt waste streams, and will keep you updated as to new relevant information. If you have questions please contact Michael Brandt (LANS) at (505) 667-4218, or Pete Maggiore (DOE) at (505) 665-5025.

Sincerely,

Michael T. Brandt, DrPH, CIH
