Dear Mr. Brown:

The U.S. Environmental Protection Agency is working on its completeness review of the U.S. Department of Energy's (DOE) 2019 Compliance Recertification Application (CRA-2019) for the Waste Isolation Pilot Plant (WIPP). This letter transmits the sixth set of Agency completeness comments and questions (see attached). This may be the final set of questions from EPA's completeness review, although we anticipate some follow up questions as needed in the coming months based on DOE's responses to the initial completeness questions. We request that DOE respond in a timely manner.

If you have any questions concerning this request, please contact Ingrid Rosencrantz at (202) 579-5157 or rosencrantz.ingrid@epa.gov.

Sincerely,
