

November 15, 2023 – Consultation Notes

Attendees:

Ricardo Maestas, Megan McLean, Michael Gerle, Martin Navarrete, Ronnie Lee, Rick Chavez, Ashley Waldram, Don Hancock, Eileen O'Shaughnessy, Doug Meiklejohn, Joni Arends, Scott Kovac, Cindy Weehler, Steve Zappe

Information Provided:

Discussed the new Hazardous Waste Facility Permit condition in Permit Part 4, Section 4.2.1.5.

Overview of proposed schedule/activities

- Consultation with stakeholders:
 - Meeting with condition requestors and interested parties (November 15, 2023)
 - WIPP Information Exchange (December 13, 2023)
- Permittees' Consultation with generator/storage sites
 - December 2023-May 2024
- Public meeting with stakeholders
 - June/July 2024
- Compile data and prepare plan
 - May-September 2024
- Legacy TRU Waste Disposal Plan due to NMED
 - November 3, 2024
- 60-day public input on final plan
 - November 3, 2024-January 2, 2025

Stakeholders shared input on priorities, community involvement, clean-up activities and defining legacy waste as the "pre-existing" waste.

Stakeholders requested a website/portal for information regarding the Plan. Also, requested information to be shared before meetings.

Actions:

Permittees will work on getting a webpage developed for the Plan

Permittees will reach out to generator/storage site CABs to share meeting notice
