WIPP UPDATE: July 8, 2014

Defense Nuclear Facility Safety Board

Defense Nuclear Facility Safety Board (DNSFB) Vice Chairwoman Jesse Roberson visited and toured the WIPP site this week. While on-site, she was briefed on the status of the ventilation system and pending upgrades, as well as various other on-going tasks. Discussions were also held with employees involved in the February 5 truck fire. The purpose of the one-day visit was to get a better understanding of how WIPP is progressing through the recovery process and what additional tasks need to be completed.
