Nuclear Waste Partnership, LLC

Rollback Progress

Recovering the Underground

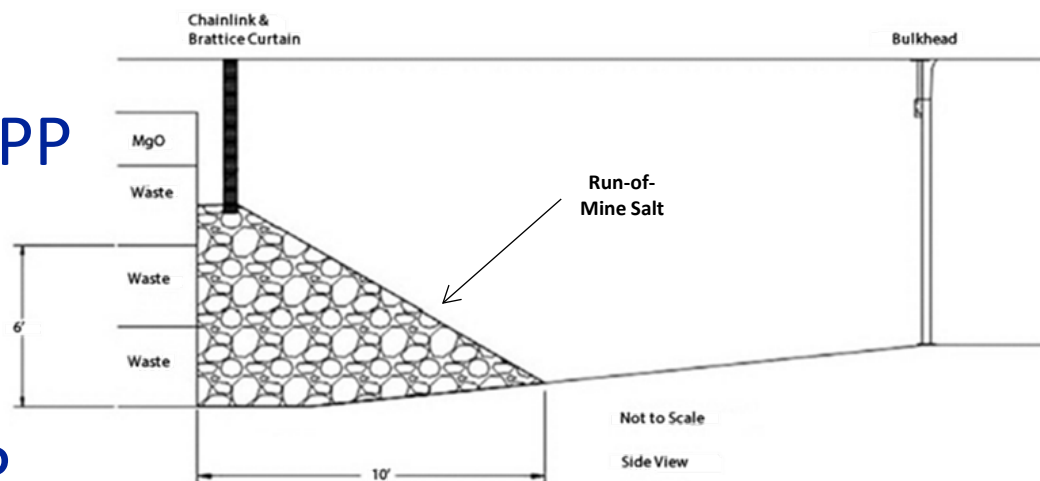

- Resumption of bolting a high priority
 - Preventative maintenance activities on equipment nearing completion
- Waste hoist
 - Camera inspection of shaft/ropes completed
 - Preventive maintenance progress good
 - NDE of ropes completed
 - Scaling of buildup in shaft underway

Panel 6 Closure Plans

- Closure of Panel 6 is a high priority of the WIPP recovery plan
- NMED approved the initial closure for WIPP Panel 6
 - Includes chain-link, brattice, run-of-mine salt and bulkheads

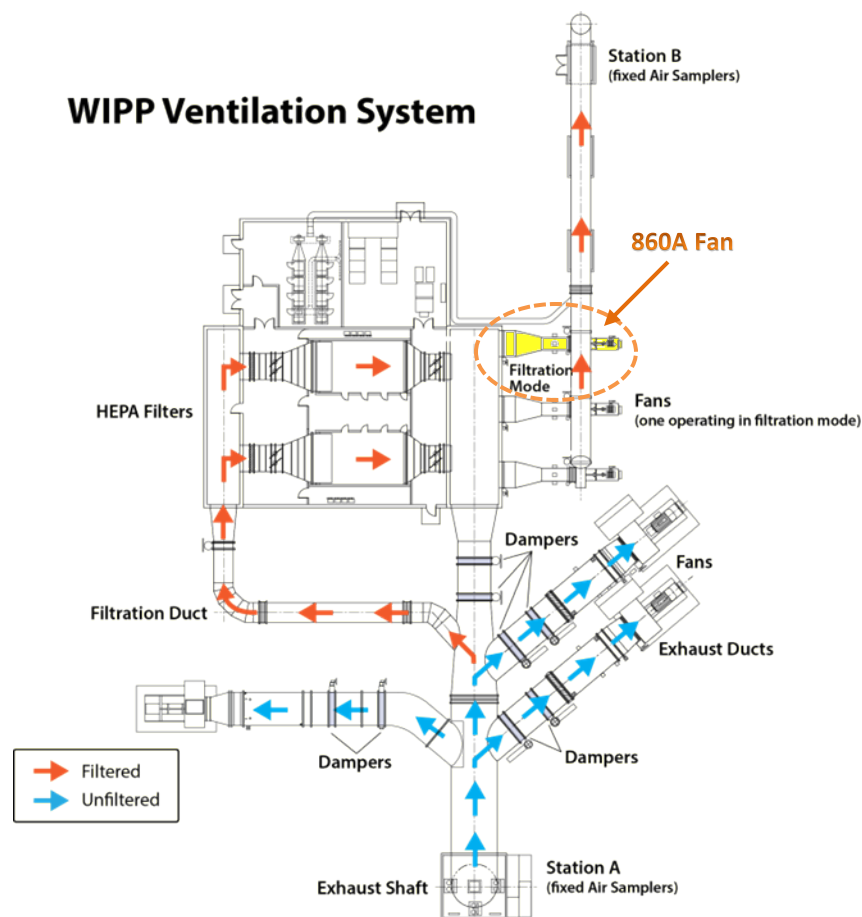

Initial Closure in Panel 6

Steel Bulkhead

860A Fan Restart

- Surface fan 860A is one of three ventilation fans that operate when WIPP is in filtration mode
- 860A operated during event and for two months following
- Scheduled to go back into service in October to assure overall reliability of filtration system
- When the fan is restarted, a small amount of residual contamination may be released
- Precautions are being taken to ensure protection of workers and the environment
- Enhanced environmental monitoring will occur

WIPP Near-Term Emphasis Activities

SafetyFest of Southeastern NM

- Three-day safety conference/training event
- Dynamic speakers, industry experts, vendor booths
- Emphasis on workplace and roadway safety
- Offers accredited safety classes free of charge
- Register at <http://safetyfestsenm.com>

United Way Campaign

- WIPP has great support from the local community
- The United Way meets many of the community's needs
- NWP is pleased to support the United Way in building a stronger and healthier community
 - WIPP will begin its 2014 United Way support campaign next week
 - NWP produced the Carlsbad United Way 2014-2015 campaign video & designed campaign materials
