OPENING COMMENTS

Dana Bryson, CBFO Deputy Manager

UPDATE ON RECOVERY ACTIVITIES

Tammy Reynolds, NWP Deputy Recovery Manager

Event Investigation Continues - May 22 Entry

- We have identified one breached drum
- The drum was confirmed as coming from Los Alamos
- Other potentially damaged drums found to be intact

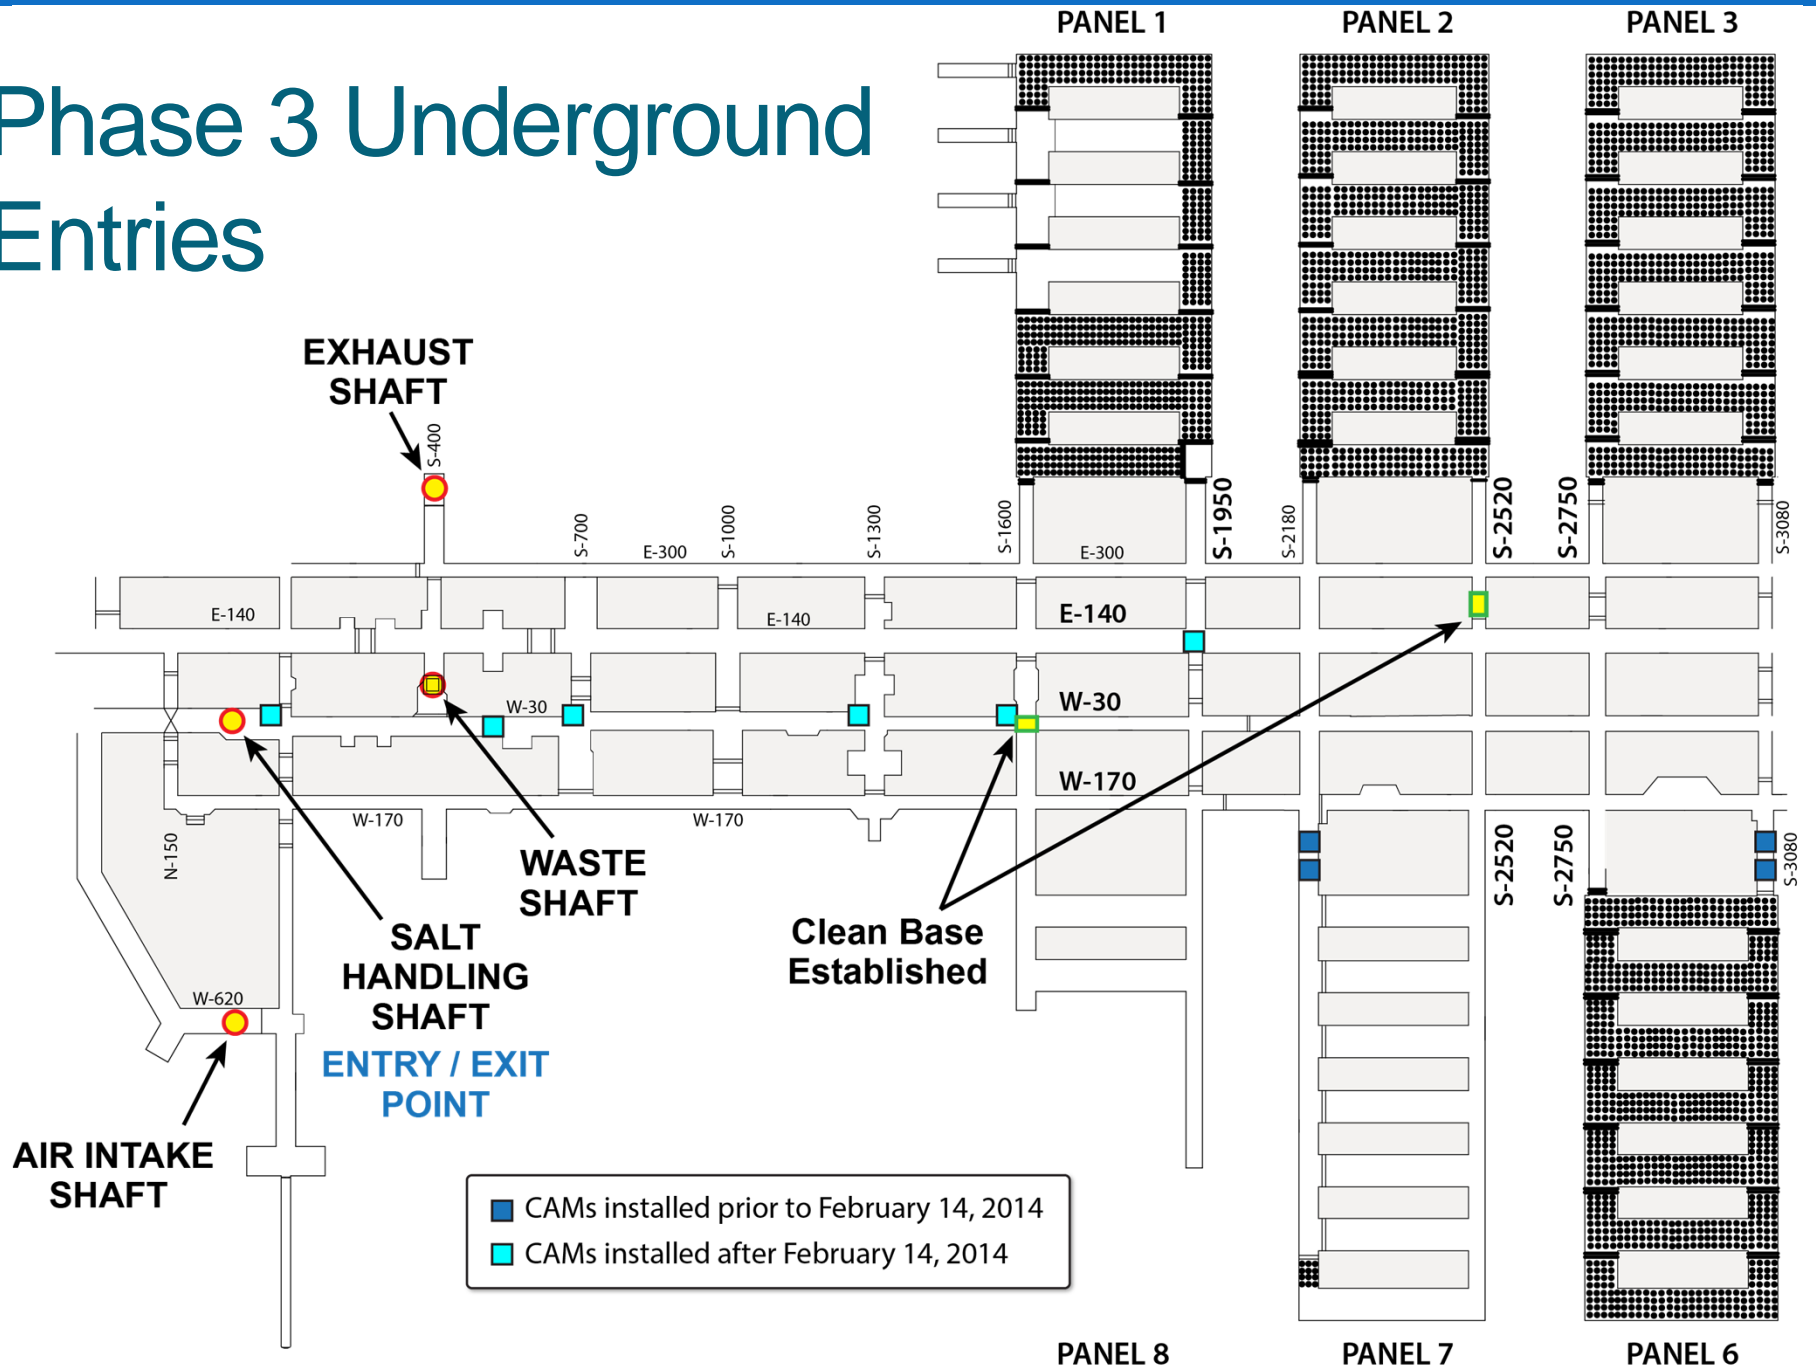

Event Investigation Continues - May 28 Entry

- Closed the bulkhead doors at the south end of the mine
 - Changed the ventilation configuration
 - Provided more air flow in Panel 7
- Geotechnical surveys were performed. No issues with the mine were observed.

Phase 3 Underground Entries

Ventilation Filter Replacement Status

Activities this week:

- Installation of make-up air inlet
- Reduction in U/G ventilation flow to allow isolation of one of the two filter units
 - Necessary for filter replacement
