**BACKGROUND:**

Contract Modification 62 was issued May 1, 2014, to update information in Section J, Attachment C – Contract Deliverables. Since that time there have been additional changes to information for contract deliverables such as reference updates, revised due dates, deletions or additions of deliverables resulting from changes to contract clauses, DOE Directives, DOE guidance, or other mutually agreed-to changes.

Three additional deliverables are added in this modification. Contract Clause FAR 52.204-10 was in the contract at award and requires reporting of executive compensation at [www.sam.gov](http://www.sam.gov) and first tier subcontract reporting at [www.fsr.gov](http://www.fsr.gov). However, the two deliverables were inadvertently omitted from Attachment C and are now added. Subcontract reporting that was incorporated in Contract Clause H.59 is added to the contract deliverables list.

Prior to finalizing this modification, the Carlsbad Field Office and NWP reviewed and agreed to a red-lined revision of Attachment C incorporating changes since Modification 62. The final, revised Attachment C is attached to this modification.

There are no anticipated changes to work scope, schedule, or cost from these changes.

**CONTRACTOR'S RELEASE OF CLAIMS (FAR 43.204):** In consideration of the modification agreed to herein as a complete and equitable adjustment for the no-cost change confirmed by this modification, the Contractor hereby releases the Government from any and all liability under this contract for further equitable adjustments attributed to such facts or circumstances giving rise to this modification, with no exceptions.
